We offer:

- Complete Locksmith Services
- Complete Security Products and Services
- Quick Response Time
- Software Support and Diagnostics
- Expert Problem Solving and Design
- Fully Backed Security Product Warranties
- Contractor Coordination
- System Pre-Assembly and Testing
- Post-Installation Testing and Training

Why Us?

See how we're different:

A Wisconsin Leader in Professional Security Services

Very few companies in Northeast Wisconsin can say that offering professional security services is their sole focus.

How does that affect you? It means that most businesses claiming to be "security specialists" don't have the industry know-how, expertise or training needed to design and install the appropriate security alarm system or video surveillance camera for your home or business.

Along with the fact that security is all we do, some added advantages of working with Lappen Security include:

- One investment, no re-dos
- Trained security professionals
- Rigorous testing
- Licensed Medeco Service Center (MSC) - one of just two in Wisconsin.
- Try before you buy

Door Solutions from
